

Each year Wyke Sixth Form College enrolls a small number of European students (often Scandinavian) who study AS level qualifications for one year. These students are part of a European programme, where they study overseas for one year. More information about the programme and the organisation that administer it can be found at either of these web addresses:

[www.ef.com](http://www.ef.com)

[www.efhighschoolyear.co.uk](http://www.efhighschoolyear.co.uk)

While in Hull these students gain

- a great experience studying in an outstanding College
- A full cultural experience staying with an English host family
- A chance to make long lasting friendships with English students
- Strong and clear support throughout their stay with a local international coordinator support students and host families

Typically students arrive in the UK in August and leave in June of the following year. Some go home over the Christmas period, however these visits must be within College holidays. Host families receive a small payment to cover their costs of hosting a student.

Although the students in Hull always attend Wyke sixth form college and are typically outstanding students, who are an asset to the college, the programme is not administered by Wyke sixth form college. If you are interested in exploring whether you would like to act as a host family for a European student for a year the next step would be to contact either

## What are exchange students typically like like?

### **Stella Croce (Germany)**

2008-2009

Stella studied Biology, English, Maths and Spanish AS levels obtaining 2 grade A's and two grade B's. While at Wyke she also played in the girls football team.

### **Mona Johansen (Norway)**

2009-2010

Mona studied Drama studies, English, Geography and Sociology AS levels and achieved grade Cs in all these subjects. Mona also went on a Wyke College trip to Johannesburg to undertake volunteer work in an orphanage.
